

ANNE HU

LEGAL INTERN

Intellectual Property is an area of law that I have developed an acute interest. I have realized the importance IP plays in this age of data being the "new oil". The opportunity to work with patent attorneys and litigators in industries as diverse as pharmaceutical, biotech and mining is invaluable for a law student.

EXPERTISE

Anne is an exceptional student at the University of Sydney, currently studying Bachelor of Laws/ Bachelor of Advanced Science (Financial Mathematics and Statistics). She is the recipient of the Sydney Scholars Award Scholarship.

She has worked as a paralegal with Norton Rose Fulbright in their Banking and Finance/Litigation team and interned with The Shopfront Youth Legal Centre, a pro bono legal service specializing in criminal law.

Her interest in IP law was fueled by a course taken while she was on exchange at the University of Pennsylvania. She is particularly interested in pharmaceutical and biotechnology patents.

Silberstein & Associates is an Australian-based corporate services legal firm. Our team of experienced lawyers work with individuals, entrepreneurs, corporations and start-ups, both domestically and internationally, to find commercially sensible legal solutions.
